EDUCATION

Master of Science: Computer Science

University of North Carolina at Charlotte, NC, USA

Expected Graduation: 2016 December

CGPA: 4.0 (21 credit hours)

Bachelor of Technology: Information Technology

Toc H Institute of Science & Technology, Kerala, India

2010 April

CGPA: 3.9

Honors:

- Recipient of the Indian Prime Minister's scholarship for 4 years (2006 – '10)

EMPLOYMENT

Totient Business Solutions Pvt. Ltd.

Test Automation Engineer

Bangalore, Karnataka, India

2011 Oct – 2014 Dec

- Worked on building automation framework using Selenium for testing the product.
- Worked extensively on Linux shell scripting. Contributed to restructuring framework from scratch to yield efficient execution time.
- Experience on web service testing. Amazon big data testing.
- Implemented a headless automation framework using HtmlUnit and Java and integrated the same with JUnitReport.

Honors:

- Bestowed with "The Best Employee of the Year Award"
- Implemented screen capture of the application at the point of test failure when automated tests are executed in cluster, unsupervised. Reduced debug time and maintenance by 50%.
- Proposed and implemented code cleanup thus reducing redundancy and improved coherence of framework.
- Implemented generic XPath module which generates dynamic XPath for any element in the application with minimal input.

Cognizant Technology Solutions

Programmer Analyst Trainee

Coimbatore, Tamil Nadu, India

2010 Nov – 2011 April

- Completed comprehensive industrial training (6 months)
- Worked on web services testing in Insurance domain

Honors:

- Recognized as "The Best Newcomer of the team"
- Received applauds for implementing a quicker way of importing data into web services

CONFERENCE PARTICIPATION

Paper(s) Presented:

“Wimax and the issues related to power consumption on devices”, International Conference on “Recent Trends in Computational Science” (ICRTCS – 2008), 11- 13 June 2008, Cochin

RESEARCH EXPERIENCE

Worked extensively with R&D department of Toc H Institute of Science & Technology to develop **Employee Appraisal System** for the institute. The system evaluated the performance of the employees based on reviews by the Dean, Head of the Department, coworkers and students. It also recorded Time-In and Time-Out of the employees using a fingerprint reader and generated overall evaluation report at the end of the term.

EXTRACURRICULAR UNIVERSITY SERVICE

- Established and presided over **Sun Microsystem’s Open Source University Meetup (OSUM)** in undergraduate college campus. Conducted technical hands-on sessions for students. Organized seminars to provide awareness on importance and application of Open Source software, design and other content.
- Organized and conducted events as part of Annual College Meet.

RELATED PROFESSIONAL SKILLS

Operating Systems	Windows, Linux, UNIX, Android, ROS
